## **Forwarding**

*I am thrilled to observe the updated curriculum of the M.A.Education.Department of educationProgram, which seamlessly integrates the most recent technological advancements and adheres to the guidelines set forth by NCTE. The revised curriculum also thoughtfully incorporates the directives of NEP-2020 and the Sustainable Development Goals.*

*The alignment of course outcomes(COs), Programme Outcome (POs) and Programme specific outcomes(PSOs) has been intricately executed, aligning perfectlywiththerequisitesofNEP-2020andNAACstandards.Iholdthebeliefthat this revised syllabus will significantly enhance the skills and employability of our students. With immense satisfaction, I hereby present the revised curriculum for the M.A.Education program for implementation in the upcoming session.*

## ***From the Desk of the Vice-Chancellor***

*AKS University is currently undergoing a process to revamp its curriculum into an outcome-based approach, with the aim of enhancing the teaching and learning process. The foundation of quality of quality education lies in the implementation of a curriculum that aligns with both societal and industrial needs, focusing on relevant outcomes. This entails dedicated and inspired faculty members, as well as impactful industry internships.*

*Hence, it is of utmost importance to begin this endeavor by crafting an outcome-based curriculum in collaboration with academia experts. This curriculum design should be informed by the latest technological advancements, market demands, the guidelines outlined in the National Education Policy (NEP) of 2020, and sustainable goals.*

*I'm delighted to learn that the revised curriculum has been meticulously crafted by the Education Department, in consultation with an array of experts from the schools, research institutes, and academia. This curriculum effectively integrates the principles outlined in the NEP-2020 guidelines, as well as sustainable goals.*

*Further more, the curriculum takes into account the specific need of the Indian education system, focusing on the skills of teacher for effective teaching. This inclusion not only imparts knowledge but also encourages students' independent thinking for potential enhancements in this area.*

*The curriculum goes beyond theoretical learning and embraces practical applications. To enhance students' skills, the curriculum integrates Hands-On Training, school visits, and On-Job Training experiences, research and progress. This well-rounded approach ensures that students receive a comprehensive education, fostering their skill development and preparing them for success in the teaching.*

*I am confident that the updated curriculum for M.A. Education will not only enhance students' technical skills but also contribute significantly to their employability. During the process of revising the curriculum, I am pleased to observe that the Education department has diligently adhered to the guidelines provided by the NCTE.*

*It's worth noting that curriculum revision is an on going and dynamic process, designed to address the continuous evolution of technological advancements and both local and global concerns. This ensures that the curriculum remains responsive and attuned to the changing landscape of education and Schools.*

*AKS University warmly invites input and suggestions from teacher training experts and technocrats and Alumni students to enhance the curriculum and make it more student-centered. Your valuable insights will greatly contribute to shaping an education that best serves the needs and aspirations of our students.*

*AKS University, Satna  
01 August 20*

*Professor B.A. Chopade  
Vice-Chancellor*

## Preface

Welcome to the Master of Arts in Education program. This preface introduces the educational framework and credit system designed to support your academic and professional growth, in alignment with Outcomes-Based Education (OBE) principles and the guidelines set forth by the National Council for Teacher Education (NCTE). Master of Arts in Education program stands at the forefront of educational innovation, guided by a clear commitment to achieving excellence through a structured yet flexible approach. Central to our program is the integration of Outcomes-Based Education (OBE), a pedagogical model that emphasizes the attainment of specific learning outcomes. This model ensures that each component of our curriculum is purposefully designed to help you develop the competencies necessary for effective teaching and leadership in diverse educational settings..

We encourage you to actively engage with the program, leverage the resources available to you, and take full advantage of the opportunities for personal and professional growth. Your participation and achievements in this program will not only contribute to your career advancement but also play a role in shaping the future of education. In accordance with the guidelines established by the National Council for Teacher Education (NCTE), our credit system is designed to offer a structured yet adaptable path to achieving your educational goals.

Each course within the program is assigned a specific credit value, which reflects the time and effort required to meet the learning outcomes. This credit system supports a balanced and comprehensive approach to learning, allowing you to manage your studies effectively while maintaining high academic standards. The NCTE-based credit system ensures that your progress is systematically evaluated, with credits awarded based on the successful demonstration of the program's defined outcomes. This framework provides a transparent and equitable method for tracking your achievements and supports a flexible learning environment that accommodates diverse needs and schedules.

We encourage you to actively engage with the program, leverage the resources available to you, and take full advantage of the opportunities for personal and professional growth. Your participation and achievements in this program will not only contribute to your career advancement but also play a role in shaping the future of education.

## **Introduction:**

AKS University proudly stands as a pioneer, being the first in the nation to introduce a comprehensive 2-year M.A Education. program. This innovative curriculum has been meticulously crafted to align with the dynamic needs of the schools and the most current technological advancements. Currently, a vibrant community of 99 students is actively engaged in pursuing their M.A with in this Department. The Department boasts cutting-edge laboratories that serve as hubs for immersive hands-on training, enabling students to develop into practical applications of their learning. The program incorporates teacher training. vital components that enrich the educational journey. Distinguished by a faculty composed of education experts who bring with an experience, the department combines robust classroom instruction with practical. This unique blend empowers our students to confidently contribute to teach students and make a significant impact in the field.

### **Vision :**

The Vision of Department is to provide an excellent education for all pupils with inacaring environment.

### **Mission :**

- M1-** Curriculum:To provide a frame work for learning with in and beyond the formal curriculum that offerspupils a range of opportunities designed to help them reach excellent standards of attainment and achievement.
- M2-** Teaching: To provide effective teaching that is marked by high, but realistic, expectations, and which promotes a joy in learning that forms a sound foundation for continuing achievement in later life.
- M3-** Meeting Pupils'Needs: To provide challenge and support for learning that are well suited to pupils' individual abilities and needs.
- M4-** Resources: To provide accommodation, resources and facilities that are appropriate to an excellent modern education
- M5-**Management:To provide effective leadership and management that enables all staff to be aware and responsive to the needs and aspirations of pupils, other staff members, parents and the wider community and to be successful in pursuing continuous improvement

### **Programme Educational outcomes(PEO) :**

- PEO-1 To enable student teachers to develop dedication and motivation to wards lifelong learning and clear futuristic vision and aspirations for improving the teaching-learning process as interdisciplinary knowledge.
- PEO-2 To equip the student teachers with the knowledge and skills of new technologies focusing on understanding the principles of organisational management, leadership and systematic change.
- PEO-3 To enable student teachers to examine critically the theories and concepts of education drawn from various disciplines related to education such as Philosophy, Psychology,Sociology, Management,Economics,Science and Technology,ICT etc. in such away that their linkages with methods, pedagogy and practices in the classroom can be enriched.
- PEO-4 To enable student teachers to develop specialization in areas of

education to emerge as educational leaders in those areas

### **Programme Objectives (POs):**

**POs-1** To prepare dedicated teachers for improvement of the school education system in the state of M.P.

and Nation

**POs-2** To make teachers well-equipped to teach at schools in secondary and SeniorSecondary level.

**POs-3** To provide opportunities to enhance their competence and knowledge construction abilities in creating positive learning atmosphere in schools.

**POs-4** To enable teachers to understand child psychology so that teaching-learning-processes could be designed by them self accordingly.

**POs-5** To adopt and renew the relevant techniques of teaching skill development.

**POs-6** To equip teachers with necessary soft skills and attitude.

**POs-7** To enhance the educational qualities as social requirements

### **Programme Specific Outcomes:**

**PSO.1.** To produce qualified and competent teachers and teacher educators

**PSO.2.** To provide knowledge on historical, philosophical and sociological foundation of educational practices

**PSO.3.** To provide training to become educational psychologists and counsellors

**PSO.4.** To provide opportunities to critically examine and reflect on the concept.

**Consistency /Mapping of PEOs with Mission of the Department**

**GENERALCOURSESTRUCTURE &THEME****Definition of Credit**

1Hr.Lecture(L) per 15days	1Credit
1Hr.Tutorial (T)per week	1Credit
2 Hours Practical (P)per week	1Credit

**Range of Credits:**

In the light of the fact that a typical Model Two-year post Graduate degree program in M.A.Education has about 104 credits, the total number of credits proposed for the two-year in M.A. Education considering NEP2020 and NAAC

**Curriculum of M.A.Education****The structure of PG program M.A. Education**

M.A.Education:The structure of P.G.program M.A.Education shall have essentially the following categories of Components of the Curriculum with the break up of credits as given:

## Components of The Curriculum

### (Program curriculum grouping based on course components)

Sl No	Course Component	% of Total number of credits of the Program	Total number of Credits
1	Philosophical Foundations of Education-Part-I	5.769	6
2	Psychological Foundations of Education– Part -I	5.769	6
3	Sociological Foundations of Education-Part-I	5.769	6
	Methodology of Educational Research & Educational Statistics -part-II	5.769	6
5	Information and Communication Technology in Education-(Practicalbase)	5.769	6
6	Philosophical Foundations of Education–Part-II	5.769	6
7	Psychological Foundations of Education–Part-II	5.769	6
8	Sociological Foundations of Education-Part-II	4.76	5
9	Methodology of Educational Research & Educational Statistics -part-II	5.769	6
10	Synopsis-(Practicalbase	1.923	2
11	Educational TechnologyPart-I	5.769	6
12	Curriculum StudiesPart-I	5.769	6
13	Special Papers –I (any one)- 70ED 423-A Teacher Education part–I /70ED 423-B Education of the children with special needs-part-I/70ED423-C Educational Measurement and Evaluation part -I	5.769	6
14	Review of literature-(Practical base)	5.769	6

15	Educational TechnologyPart-II	5.769	6
16	Curriculum StudiesPart-II	2.884	3
17	Special Papers –II(any one)- 70ED423-A Teacher Education –part-II /70ED423-B Education of the children with special needs-partII/70ED423-C Educational Measurement and Evaluation-part-II	3.846	4
18	Dissertation with viva voce	11.538	12
	Total-	99.995=100	104

### Course level coding scheme:

Three-digit number (odd numbers are for the odd semester courses and even numbers are for even semester courses) used as suffix with the Course Code for identifying the level of the course. Digit at hundred's place signifies the year in which course is offered. e.g.

121,122... etc. for first semester

221,222.... Etc. for Second Semester

321,322... for third Semester

421,422-- for Fourth Semester

### Induction Program

Induction program for students to be offered right at the start of the first year. It is mandatory. AKS University has designed an induction program for 1<sup>st</sup> year student, details are below Physical activity Creative Arts Universal Human Values Literary Proficiency Modules Lectures by Eminent People Visits to local Areas Familiarization to Dept./Branch & Innovations Mandatory Visits/ Workshop/Expert Lectures It is mandatory to conduct a seminar/ workshop during the semester on professional /entrepreneurial orientation. It is mandatory to organize at least one expert lecture per semester for each branch by inviting resource persons

### Evaluation Scheme: For Theory Courses:

The weightage of Internal assessment is 30% and

End Semester Exam is 70%

Evaluation is based on work done, quality of report, performance in viva-voce, presentation etc.

**CourseCode:** 70ED-222

**CourseTitle:** Psychological Foundations of Education Part-II

**Pre- requisite:** Student should have  
The contribution of  
different schools of  
Psychology to  
Educations

**Rationale:** Student will know about The  
contribution of different  
schools of Psychology to  
Educations. Definition,  
Nature and factors  
influencing Learning.The  
meaning and nature of  
higher mental process. The  
meaning measurement and  
adjustment of personality.

**CourseOutcomes:**

**CO1.**Concept of motivation and it's relationship to Learning.

**CO2.** Different theories of learning -behaviouristic ,cognitive and insight.

**CO3.** Meaning and nature of creativity and its development. Specific needs and traits of exceptional children

**SchemeofStudies:**

## SEMESTER III

**CourseCode:** 70ED-321

**CourseTitle:** EDUCATIONAL TECHNOLOGY PART-1

**Pre- requisite:** Student should have knowledge To enable the students teacher to understand about the Meaning, nature, scope and significance of E.T

**Rationale:** Student will know about the Develop the professional ability To enable the students teacher to understand about the Meaning, nature, scope and significance of E.T. and its important components in terms of Hardware and Software.To help the students teachers to distinguish between communication and instruction sothat they can develop and design a sound instructional system.To acquaint students teachers with levels,strategies and models of teaching for future improvement.To enable the students teachers to understand about the importance of programmed instructions and researches in E.T.To acquaint the student teachers with emerging trends in ET along with the resources centres of E.T.

**CourseOutcomes:**

CO1. To enable the students teacher to understand about the Meaning ,nature, scope and significance of E.T.and its important components in terms of Hardware and Soft ware.

CO2. To help the students teachers to distinguish between communication and instruction sothat they can develop and design a sound instructional system. CO3.

To acquaint students teachers with levels, strategies and models of teaching for future improvement.

CO4. To enable the students teachers to understand about the importance of programmed instructions and researches in E.T. CO5. To acquaint the student teachers with emerging trends in ET along with the resources centres of E.T.

**Course Code:** 70ED-371

**CourseTitle:** Review of literature

**Pre- requisite:** Student should have knowledge the theories, ideas, explanations or hypothesis which may prove useful in the formulation of a new problem

**Rationale:** Student will know about the theories ,ideas, explanations or hypothesis which may prove useful in the formulation of a new problem. It indicates whether the evidence already available solves the problem adequately without requiring further investigation. It avoids the replication.It provides the sources for hypothesis. The researcher can formulate research hypothesis on the basis of available studies. It suggests method, procedure, sources of data and statistical techniques appropriate to the solution of the problem. It locates comparative data and findings useful in the interpretation and discussion of results.The conclusions drawn in the related studies may be significantly compared and may be used as the subject for the findings of the study.It helps in developing experts and general scholarship of the investigator in the are a investigated. It contributes towards the accurate knowledge of the evidence or literature in one's area of activity is a good avenue to wards making one self. This knowledge is an as set ever after wards, whether one is employed in an institution of higher learning or a researchh organization

**Course Outcomes:**

CO1.It provides theories, ideas, explanations or hypothesis which may prove useful in the Formulation of an ew problem .It indicates whether the evidence already available solves the problem adequately with out requiring further investigation. It avoids the replication.

CO2.It provides the sources for hypothesis.The researcher can formulate research hypothesis On the basis of available studies.It suggests method,procedure,sources of data and statistical techniques appropriate to the solution of the proble

CO3 It locates comparative data and findings useful in the interpretation and discussion of results. The conclusions drawn in the related studies may be significantly compared and may be used as the subject for the findings of the study.

CO4.It helps in developing expertsand general scholarship of the investigator in the area investigated.

CO5.It contributes towards the accurate knowledge of the evidence or literature in one's area of activity is a good a venue towards making oneself. This knowledge is an asset ever afterwards, whether one is employed in an institution of higher learning or a research organization.

**Course Code:** 70ED-471

**CourseTitle:** Dissertation-viva voce

**Pre- requisite:** Student should have knowledge of each prospective teacher educator has to select/develop the research tools /instruments and collect the data pertaining to his/her research problem.

**Rationale:** Student will know about the Develop each prospective teacher educator has to select/develop the research tools/instruments and collect the data pertaining to his/her research problem. The Principal /Head shall arrange a Research Colloquium to enable each student give a presentation on adoption /development of research tools /instruments related his /her research the prospective teacher educators have to complete the data analysis, interpretations and submit the dissertation . To enable each student give a presentation before submission of the dissertation to the university for external evaluation subject to the approval of the Research Advisory Committee. To enable to identify research problem/topic ; To help students to formulate research questions, objectives, hypotheses etc. To enable students to make research design or actual plan of work analysis

**Course Outcomes:**

CO1.each prospective teacher educator has to select /develop the research tools /instruments and collect the data pertaining to his / her research problem.

CO2.The Principal /Head shall arrange a Research Colloquium to enable each student give a presentation on adoption /development of research tools /instruments related his/her research.

CO3.the prospective teacher educators have to complete the data analysis ,interpretations and submit the dissertation

CO4.To enable each student give a presentation before submission of the dissertation to the university for external evaluation subject to the approval of the Research Advisory Committee.

CO5.To enable to identify research problem /topic;To help students to formulate research questions,objectives, hypothesis etc. To enable students to make research design or actual plan of work analysis

Lectures.

**Scheme of Studies:**

			CI	LI	SW	SL	TotalStudyHours (CI+LI+SW+SL)	
LC	71ED-114	Dissertation-vivavoce	12	0	2	1	15	12

**Legend:**

**CI:**Classroom Instruction (Includes different instructional strategiesi.e .Lecture (L) and Tutorial (T)and others),

**LI:**Laboratory Instruction (Includes Practical performances in laboratory workshop, field or other locations using different instructional strategies)

**SW:** Sessional Work (includes assignment, seminar ,mini project etc.),

**SL:**Self Learning,

**C:**Credits.

**Note;** Each prospective teacher educator has to select/develop the research tools/instruments and collect the data pertaining to his/her research problem. The Principal / Head shall arrange a Research Colloquium to enable each student give a presentation on adoption/development of research tools/instruments related his/her research..the prospective teacher educators have to complete the data analysis, interpretations and submit the dissertation . To enable each student give a presentation before submission of the dissertation to the university for external evaluation subject to the approval of the Research Advisory Committee.To enable to identify research problem/topic;To help students to

formulate research questions, objectives, hypothesis etc. To enable students to make research design or actual plan of work analysis

**Scheme of Assessment:  
Theory**

category	Course Code	Course Title	Scheme of Assessment(Marks)							
			Progressive Assessment (PRA)						End Semester Assessment	Total Marks
			Dissertation(DI)	Class Test (CT)	Seminar one (SA)	Class Activity any one (CAT)	Class Attendance (AT)	TotalMarks (DI+CT+SA+CAT+AT)		
LC		Dissertation- viva voce	100	-	-	-	-	100	100	200

**Course-CurriculumDetailing:**

This course syllabus illustrates the expected learning achievements, both at the course and session levels, which students are anticipated to accomplish through various modes of instruction including Classroom Instruction(CI), Laboratory Instruction (LI), Sessional Work (SW), and Self Learning (SL). As the course progresses, students should showcase their mastery of Session Outcomes (SOs), culminating in the overall achievement of Course Outcomes (COs) upon the course's conclusion

Curriculum Development Team

- 1.Dr.R.S.Mishra
- 2.Dr.Bhagwan Deen
- 3.Dr.Sanand Kumar Gautam
- 4.Dr.Shikha Tripathi
